SUBJECT INDEX

HEARING

Nature of Hearing and Its Disorders

Hearing Loss and Deafness

Aspects of stop consonant production by pediatric users of cochlear implants. Chin, S. B. 33(1), 38–51.

School-based services for children with cochlear implants. Teagle, H. F. B., & Moore, J. A. 33(3), 162–171.

The use of repair strategies by children with and without hearing impairment. Most, T. 33(2), 112–123.

Vocal development in young children with cochlear implants: Profiles and implications for intervention. Ertmer, D. J., Young, N., Grohne, K., Mellon, J. A., Johnson, C., Corbett, K., & Saindon, K. 33(3), 184–195.

Assessment of Hearing

Acoustical Instruments Measurements, and Standards

School-based services for children with cochlear implants. Teagle, H. F. B., & Moore, J. A. 33(3), 162–171.

Specific Diagnostic Techniques and Approaches: Speech

Vocal development in young children with cochlear implants: Profiles and implications for intervention. Ertmer, D. J., Young, N., Grohne, K., Mellon, J. A., Johnson, C., Corbett, K., & Saindon, K. 33(3), 184–195.

Intervention

Habilitation, Rehabilitation, and Education

Aspects of stop consonant production by pediatric users of cochlear implants. Chin, S. B. 33(1), 38–51.

Communication intervention for children with cochlear implants: Two case studies. Ertmer, D. J., Leonard, J. S., & Pachuilo, M. L. 33(3), 205–217.

Epilogue: Technological innovations and intervention practices for children with cochlear implants. Ertmer, D. J. 33(3), 218–221.

Factors affecting the development of speech, language, and literacy in children with early cochlear implantation. Geers, A. E. 33(3), 172–183.

From ear to cortex: A perspective on what clinicians need to understand about speech perception and language processing. Nittrouer, S. 33(4), 237–252.

Introducing young children who are deaf or hard of hearing to spoken language: Child'sVoice, an oral school. Wilkins, M., & Ertmer, D. J. 33(3), 196–204.

An introduction to cochlear implant technology, activation, and programming. Moore, J. A., & Teagle, H. F. B. 33(3), 153–161.

Prologue: Challenges in optimizing oral communication in children with cochlear implants. Ertmer, D. J. 33(3), 149–152.

School-based services for children with cochlear implants. Teagle, H. F. B., & Moore, J. A. 33(3), 162–171.

Vocal development in young children with cochlear implants: Profiles and implications for intervention. Ertmer, D. J., Young, N., Grohne, K., Mellon, J. A., Johnson, C., Corbett, K., & Saindon, K. 33(3), 184–195.

Hearing Aids and Other Prostheses

Aspects of stop consonant production by pediatric users of cochlear implants. Chin, S. B. 33(1), 38–51.

Factors affecting the development of speech, language, and literacy in children with early cochlear implantation. Geers, A. E. 33(3), 172–183.

Introducing young children who are deaf or hard of hearing to spoken language: Child'sVoice, an oral school. Wilkins, M., & Ertmer, D. J. 33(3), 196–204.

An introduction to cochlear implant technology, activation, and programming. Moore, J. A., & Teagle, H. F. B. 33(3), 153–161.

School-based services for children with cochlear implants. Teagle, H. F. B., & Moore, J. A. 33(3), 162–171.

Vocal development in young children with cochlear implants: Profiles and implications for intervention. Ertmer, D. J., Young, N., Grohne, K., Mellon, J. A., Johnson, C., Corbett, K., & Saindon, K. 33(3), 184–195.

LANGUAGE

Nature of Normal Language

Language Development

Epilogue: Recent advances in phonological theory and treatment: Part II. Barlow, J. A. 33(1), 67–69.

From ear to cortex: A perspective on what clinicians need to understand about speech perception and language processing. Nittrouer, S. 33(4), 237–252.

The lexicon and phonology: Interactions in language acquisition. Storkel, H. L., & Morrisette, M. L. 33(1), 24–37.

Partner influences on the social pretend play of children with language impairments. DeKroon, D. M. A., Kyte, C. S., & Johnson, C. J. 33(4), 253–267.

Prologue: Recent advances in phonological theory and treatment: Part II. Barlow, J. A. 33(1), 4–8.

Whole-word phonology and templates: Trap, bootstrap, or some of each? Velleman, S. L., & Vihman, M. M. 33(1), 9–23.

Language Use in Adults

Responsiveness of child care providers in interactions with toddlers and preschoolers. Girolametto, L., & Weitzman, E. 33(4), 268–281.

Verbal Learning and Memory

From ear to cortex: A perspective on what clinicians need to understand about speech perception and language processing. Nittrouer, S. 33(4), 237–252.

Phonology

Aspects of stop consonant production by pediatric users of cochlear implants. Chin, S. B. 33(1), 38–51.

Whole-word phonology and templates: Trap, bootstrap, or some of each? Velleman, S. L., & Vihman, M. M. 33(1), 9–23.

Language Disorders

Language Disorders in Children

A case management model for school-age children with multiple needs. Smith, V. K., & Prelock, P. A. 33(2), 124–129.

Efficacy and cross-domain effects of a morphosyntax and a phonology intervention. Tyler, A. A., Lewis, K. E., Haskill, A., & Tolbert, L. C. 33(1), 52–66.

Emotion regulation in children with specific language impairment. Fujiki, M., Brinton, B., & Clarke, D. 33(2), 102–111.

Epilogue: Recent advances in phonological theory and treatment: Part II. Barlow, J. A. 33(1), 67–69.

From ear to cortex: A perspective on what clinicians need to understand about speech perception and language processing. Nittrouer, S. 33(4), 237–252.

The lexicon and phonology: Interactions in language acquisition. Storkel, H. L., & Morrisette, M. L. 33(1), 24–37.

Partner influences on the social pretend play of children with language impairments. DeKroon, D. M. A., Kyte, C. S., & Johnson, C. J. 33(4), 253–267.

Prologue: Recent advances in phonological theory and treatment: Part II. Barlow, J. A. 33(1), 4–8.

Translucency and complexity: Effects on Blissymbol learning using computer and teacher presentations. Hetzroni, O. E., Quist, R. W., & Lloyd, L. L. 33(4), 291–303.

Whole-word phonology and templates: Trap, bootstrap, or some of each? Velleman, S. L., & Vihman, M. M. 33(1), 9–23.

Language Disorders in Personality and Psychiatric Disturbances

Emotion regulation in children with specific language impairment. Fujiki, M., Brinton, B., & Clarke, D. 33(2), 102–111.

Assessment and Intervention

Screening

Designing and implementing an early literacy screening protocol: Suggestions for the speech-language pathologist. Justice, L. M., Invernizzi, M. A., & Meier, J. D. 33(2), 84–101.

Assessment

A case management model for school-age children with multiple needs. Smith, V. K., & Prelock, P. A. 33(2), 124–129.

Designing and implementing an early literacy screening protocol: Suggestions for the speech-language pathologist. Justice, L. M., Invernizzi, M. A., & Meier, J. D. 33(2), 84–101.

Epilogue: Recent advances in phonological theory and treatment: Part II. Barlow, J. A. 33(1), 67–69.

The lexicon and phonology: Interactions in language acquisition. Storkel, H. L., & Morrisette, M. L. 33(1), 24–37.

Partner influences on the social pretend play of children with language impairments. DeKroon, D. M. A., Kyte, C. S., & Johnson, C. J. 33(4), 253–267.

Prologue: Recent advances in phonological theory and treatment: Part II. Barlow, J. A. 33(1), 4–8.

Intervention

Communication intervention for children with cochlear implants: Two case studies. Ertmer, D. J., Leonard, J. S., & Pachuilo, M. L. 33(3), 205–217.

Efficacy and cross-domain effects of a morphosyntax and a phonology intervention. Tyler, A. A., Lewis, K. E., Haskill, A., & Tolbert, L. C. 33(1), 52–66.

Epilogue: Recent advances in phonological theory and treatment: Part II. Barlow, J. A. 33(1), 67–69.

The lexicon and phonology: Interactions in language acquisition. Storkel, H. L., & Morrisette, M. L. 33(1), 24–37.

Prologue: Recent advances in phonological theory and treatment: Part II. Barlow, J. A. 33(1), 4–8.

Whole-word phonology and templates: Trap, bootstrap, or some of each? Velleman, S. L., & Vihman, M. M. 33(1), 9–23.

Early Literacy

Designing and implementing an early literacy screening protocol: Suggestions for the speech-language pathologist. Justice, L. M., Invernizzi, M. A., & Meier, J. D. 33(2), 84–101.

Nonspeech Communication Systems

Translucency and complexity: Effects on Blissymbol learning using computer and teacher presentations. Hetzroni, O. E., Quist, R. W., & Lloyd, L. L. 33(4), 291–303.

SPEECH

Nature of Normal Speech

Development of Speech and Voice

From ear to cortex: A perspective on what clinicians need to understand about speech perception and language processing. Nittrouer, S. 33(4), 237–252.

Perception of Speech

From ear to cortex: A perspective on what clinicians need to understand about speech perception and language processing. Nittrouer, S. 33(4), 237–252.

Speech and Voice Disorders

Articulation and Resonance Disorders

Efficacy and cross-domain effects of a morphosyntax and a phonology intervention. Tyler, A. A., Lewis, K. E., Haskill, A., & Tolbert, L. C. 33(1), 52–66.

The lexicon and phonology: Interactions in language acquisition. Storkel, H. L., & Morrisette, M. L. 33(1), 24–37.

Assessment and Intervention

Intervention

Communication intervention for children with cochlear implants: Two case studies. Ertmer, D. J., Leonard, J. S., & Pachuilo, M. L. 33(3), 205–217.

Efficacy and cross-domain effects of a morphosyntax and a phonology intervention. Tyler, A. A., Lewis, K. E., Haskill, A., & Tolbert, L. C. 33(1), 52–66.

Vocal development in young children with cochlear implants: Profiles and implications for intervention. Ertmer, D. J., Young, N., Grohne, K., Mellon, J. A., Johnson, C., Corbett, K., & Saindon, K. 33(3), 184–195.

PROFESSIONAL AND GENERAL SCIENTIFIC ISSUES

Professional Affairs

Service Provision Models and Problems

A case management model for school-age children with multiple needs. Smith, V. K., & Prelock, P. A. 33(2), 124–129.

Introducing young children who are deaf or hard of hearing to spoken language: Child'sVoice, an oral school. Wilkins, M., & Ertmer, D. J. 33(3), 196–204.

Predicting job satisfaction among speech-language pathologists working in public schools. Blood, G. W., Ridenour, J. S., Thomas, E. A., Qualls, C. D., & Hammer, C. S. 33(4), 238–290.

Responsiveness of child care providers in interactions with toddlers and preschoolers. Girolametto, L., & Weitzman, E. 33(4), 268–281.

The transition process in the early years: Enhancing speech-language pathologists' perspectives. Prendeville, J., & Ross-Allen, J. 33(2), 130–136.

Interdisciplinary Concerns

A case management model for school-age children with multiple needs. Smith, V. K., & Prelock, P. A. 33(2), 124–129.

Predicting job satisfaction among speech-language pathologists working in public schools. Blood, G. W., Ridenour, J. S., Thomas, E. A., Qualls, C. D., & Hammer, C. S. 33(4), 238–290.

Education and Continuing Education

Predicting job satisfaction among speech-language pathologists working in public schools. Blood, G. W., Ridenour, J. S., Thomas, E. A., Qualls, C. D., & Hammer, C. S. 33(4), 238–290.

Recruitment and Retention

Predicting job satisfaction among speech-language pathologists working in public schools. Blood, G. W., Ridenour, J. S., Thomas, E. A., Qualls, C. D., & Hammer, C. S. 33(4), 238–290.

TITLE INDEX

Aspects of stop consonant production by pediatric users of cochlear implants. Chin, S. B. 33(1), 38–51.

A case management model for school-age children with multiple needs. Smith, V. K., & Prelock, P. A. 33(2), 124–129.

Communication intervention for children with cochlear implants: Two case studies. Ertmer, D. J., Leonard, J. S., & Pachuilo, M. L. 33(3), 205–217.

Designing and implementing an early literacy screening protocol: Suggestions for the speech-language pathologist. Justice, L. M., Invernizzi, M. A., & Meier, J. D. 33(2), 84–101.

Efficacy and cross-domain effects of a morphosyntax and a phonology intervention. Tyler, A. A., Lewis, K. E., Haskill, A., & Tolbert, L. C. 33(1), 52–66.

Emotion regulation in children with specific language impairment. Fujiki, M., Brinton, B., & Clarke, D. 33(2), 102–111.

Epilogue: Recent advances in phonological theory and treatment: Part II. Barlow, J. A. 33(1), 67–69.

Epilogue: Technological innovations and intervention practices for children with cochlear implants. Ertmer, D. J. 33(3), 218–221.

Factors affecting the development of speech, language, and literacy in children with early cochlear implantation. Geers, A. E. 33(3), 172–183.

From ear to cortex: A perspective on what clinicians need to understand about speech perception and language processing. Nittrouer, S. 33(4), 237–252.

Introducing young children who are deaf or hard of hearing to spoken language: Child'sVoice, an oral school. Wilkins, M., & Ertmer, D. J. 33(3), 196–204.

An introduction to cochlear implant technology, activation, and programming. Moore, J. A., & Teagle, H. F. B. 33(3), 153–161.

The lexicon and phonology: Interactions in language acquisition. Storkel, H. L., & Morrisette, M. L. 33(1), 24–37.

Partner influences on the social pretend play of children with language impairments. DeKroon, D. M. A., Kyte, C. S., & Johnson, C. J. 33(4), 253–267.

Predicting job satisfaction among speech-language pathologists working in public schools. Blood, G. W., Ridenour, J. S., Thomas, E. A., Qualls, C. D., & Hammer, C. S. 33(4), 238–290.

Prologue: Challenges in optimizing oral communication in children with cochlear implants. Ertmer, D. J. 33(3), 149–152.

Prologue: Recent advances in phonological theory and treatment: Part II. Barlow, J. A. 33(1), 4–8.

Responsiveness of child care providers in interactions with toddlers and preschoolers. Girolametto, L., & Weitzman, E. 33(4), 268–281.

School-based services for children with cochlear implants. Teagle, H. F. B., & Moore, J. A. 33(3), 162–171.

The transition process in the early years: Enhancing speech-language pathologists' perspectives. Prendeville, J., & Ross-Allen, J. 33(2), 130–136.

Translucency and complexity: Effects on Blissymbol learning using computer and teacher presentations. Hetzroni, O. E., Quist, R. W., & Lloyd, L. L. 33(4), 291–303.

The use of repair strategies by children with and without hearing impairment. Most, T. 33(2), 112–123.

Vocal development in young children with cochlear implants: Profiles and implications for intervention. Ertmer, D. J., Young, N., Grohne, K., Mellon, J. A., Johnson, C., Corbett, K., & Saindon, K. 33(3), 184–195.

Whole-word phonology and templates: Trap, bootstrap, or some of each? Velleman, S. L., & Vihman, M. M. 33(1), 9–23.
